To whom it may concern:

This document serves as an official transcript for research internship in the Department of Computer Science and Information Engineering, National Chung Cheng University, Chiayi, Taiwan. Nguyen, Truong Manh., a postgraduate student in the Department of Computer Science, University of Pisa, Italy, completed his internship for a period of 3 months from July 1, 2025 to September 28, 2025, under the supervision of Professor Pao-Ann Hsiung. During the period of internship, Nguyen, Truong Manh engaged in "AI-based Detection of Waste Littering, including Cigarette Butts and other Litters." project, a series of technical and academic lectures and activities that contributed to both personal and professional growth. He was diligent and worked on this project for long hours. I believe this internship should have honed his technical and practical skills in research and development.

According to the Grade Scheme for Internships, I awarded he "A+" for his overall performance during his internship. The grade scheme can be found at the end of this transcript certificate.
